Coming from technical and business backgrounds, I have a great passion to pursue my career in the Data Science field. My interdisciplinary background arms me with the skills to solve real-world problems through analytical methodologies and programming. I love to challenge myself to research unknown domains as well as learn cutting-edge technologies. Most importantly, I am a good team player who could provide valuable contribution in a group environment.

My Email: chuchubai0831[at]gmail[dot]com

My Technical Skills:

- Analytics: understanding business problems and building data-driven solutions
- Machine Learning: Regression, Classification, Clustering, Feature Selection, Model Selection/ Assessment, and Recommendation
- Data Mining & Information Retrieval
- Natural Language Processing
- Python Data Analysis: Numpy, Scipy, Pandas, Scikit-learn, NLTK
- Data Visualization: Tableau, D3.js, Photoshop
- Software Development: working knowledge of Python, Java, C#, JavaScript
- Big Data related techniques: Map-Reduce, Hadoop, HDFS, Hive, Pig, Amazon AWS, Spark
- Programming Languages: Python, R, Scala, JAVA, SQL, C#, JavaScript, Matlab
- Database: MySQL, SQL Server, SQLite
