Qualia   July 14, 2023

San Francisco, CA

Dear Hiring Manager,

I am applying for the position of Data Scientist in Qualia, as advertised on the Qualia career page. With a strong background in data analysis, machine learning, and a passion for leveraging data to drive business insights, I believe I am well-suited for this role and can contribute to the growth and success of the company.

I have a Ph.D degree from the University of Oklahoma and am a Data Scientist at Seeloz. Throughout my academic and professional career, I have had the opportunity to apply my skills to real-world problems, including working on projects involving data analysis and visualization, predictive modeling, and demand forecasting. I am proficient in analyzing large-scale data using Python and SQL, creating interactive dashboard to visualize results, and building predictive models using machine learning and deep learning.

I would welcome the chance to speak with you about the responsibilities of this particular Data Scientist position. My resume containing detailed work experience and education is attached. I am confident that my background makes me a unique candidate to fit this challenging position and I would be a valuable addition to your team. I look forward to hearing from you. Thank you for your time and consideration.

Sincerely,

Yu-Ting Shen
